

Thread forming screws manufactured with a 'unique' 6-Lobe Pin drive.

Thread forming screws (sometimes known as 'Self threading'). Features a tri-lobular thread body that has a triangular cross-section rather than a circular one.

The tri-lobular thread eliminates the need for nuts and pre-tapped holes, reducing labour costs & installation time.

- Stocked in Geomet® 500 B Coated Case Hardened Steel
- Tri-lobular thread resists loosening caused by vibration
- Ideal for fencing and the automotive industry.

Unique Power6™ Tooling  
(Not compatible with standard 6-Lobe Pin tooling)

Unique 6-Lobe Pin drive. For improved security.

Not standard 6-Lobe Pin.
