

# Shear Bolts

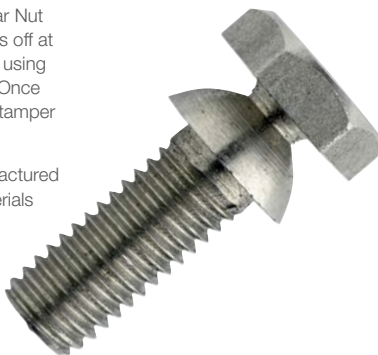

4

1  
WAY

The Shear System is a high security permanent fastener.

Both the Shear Bolt and the Shear Nut have a hexagon part which shears off at a predetermined torque. Installed using standard hex socket or spanner. Once installed, the Shear Bolt leaves a tamper resistant head.

- Shear Bolts can also be manufactured to order in most common materials and finishes

## How it works:

## Stock Range:

Button Head | A2 Stainless Steel

Box Qty 50
